The Stookey Township Highway Department has procured a speed radar trailer to place throughout the Township to assist with monitoring speed safety issues. Residents of Stookey Township may request the radar trailer to be placed on/near the right-of-way at their residence. Our Law Enforcement Committee will review the request and, if granted, will have it placed in the area for 5-7 days. During that time, the device will record vehicular speeds as well as a time and date stamp. It does not have cameras that record the vehicle, license plate or driver. Once the sign is removed, Stookey Township will analyze the data and at its discretion may share the data with other governmental agencies and discuss additional safety measures that may be taken such as speed enforcement campaigns by law enforcement or additional signage/traffic control devices.

In order to request the speed radar trailer, please fill out the attached application and submit it to Stookey Township (in person at 313 Eiler Rd. or via email to [officeadmin@stookeytwp.org](mailto:officeadmin@stookeytwp.org)). A Township official may contact you for additional information about your request. If approved, the requester will be notified of the approximate date of placement. Be advised that we will make every effort to place the device within our right-of-way (roadway, shoulder and/or grassy area), but in some cases it may be necessary to place it on your property.

While placed at your location, we ask that if you see anyone tampering with the device or damaging it that you call 9-1-1 and then Stookey Township at 618-538-7700.

We appreciate your assistance in helping to make our roads and neighborhoods safe for our children, residents and visitors!

Sincerely,

Mark P Bagby

Stookey Township Supervisor

# Stookey Township Radar Speed Sign Request

Date \_\_\_\_\_

Name \_\_\_\_\_ Phone Number \_\_\_\_\_

E-Mail Address \_\_\_\_\_

Requested Location of Sign \_\_\_\_\_

---

If the location is not at your house furnish contact information for homeowner.
